SKILLS

- Languages - Java, C#, Python, JavaScript
- Frameworks - Spring Boot, ReactJS, NodeJs
- Web Technologies - HTML, CSS, Bootstrap
- Mobile App Development - React Native
- Databases - MySQL, Firebase
- APIs & Integration - RESTful APIs, JSON, Axios
- Version Control & Tools - Git, GitHub, Postman
- Deployment & Platforms - Railway, Netlify, Firebase Hosting, Hostinger

SOFT SKILLS

- Teamwork
- Problem Solving
- Critical Thinking
- Continuous learning
- Good Communication

PROJECTS

- ZedX POS - ReactJs, NodeJs, MySQL (Real Project)
- Royal Book Shop Billing System - Java (JFrame)
- Tourism Website - HTML, CSS, JavaScript
- Student Management System - C#, Visual Studio 2012, MySQL
- Education Mobile App - React Native, Firebase
- Coffee Shop Mobile App Design - Figma

PROFILE

Passionate and detail-oriented software engineer with experience in building POS systems, RESTful APIs, microservices, and responsive web applications. Skilled in Java, C#, Python, JavaScript, and Node.js, with a strong emphasis on writing clean, maintainable code and creating user-friendly solutions. Solid understanding of algorithms, data structures, object-oriented programming, and design patterns. Quick learner and effective collaborator, eager to contribute to dynamic development teams and committed to continuous learning.

WORK EXPERIENCE

- Codearson (PVT) LTD

JAN 2025- JUNE 2025

Software Engineering Intern (Remote)

 - Developed full-stack features for a POS system and an e-commerce platform using Java, Spring Boot, MySQL, and ReactJS.
 - Built and maintained RESTful APIs across multiple micro-services, including complex CRUD operations involving multiple tables.
 - Designed and implemented role-based access control, user authentication, and admin features like listing approvals and order management.
 - Collaborated using GitHub, handling branch management, pull request reviews for back-end, and resolving merge conflicts.
 - Wrote scalable and secure APIs with filtering, sorting, and pagination for large product datasets.
 - Used Postman for testing APIs and deployed services using Railway (back-end) and Netlify (front-end).
 - Participated in Agile sprints, including daily stand-ups, sprint reviews, and demos.
 - Contributed to database design and optimized queries to improve performance and maintain data consistency.

EDUCATION

- BCAS Campus Jaffna

MAR 2023- JAN 2025

Pearson BTEC HND in Computing (Software Engineering)

Overall Distinction
- ESOFT Metro Campus Jaffna

MAY 2022- APR 2023

Diploma in IT and English

Distinction for IT and Merit for English
- Jaffna Hindu College

MAY 2019- JAN 2022

GCE A/L

2CS (Maths and Ict were C and Physics was S)
- Kokuvil Hindu College

JAN 2013- DEC 2018

GCE O/L

5A3BS (English, Maths were A)
